

A message in a virtual bottle for the protection of the oceans/seas from pollution and plastic waste!

- ✚ Don't throw plastic litter in the sea, only in the recycling bins. It is very important!
- ✚ We love the sea; we love swimming, so keep the oceans clean.
- ✚ Playing with the sand in the beach makes us happy, that's why we should keep the sand clean, without rubbish.
- ✚ If you love your home then you love your planet! So protect it from plastic waste.
- ✚ Keep your things in order. Where do you keep your clothes? Are you putting them in the kitchen? No! So, don't throw your rubbish in the sea, only in the bins.

Let's all join forces to save and protect marine life!!!
