

ERASMUS MOBILITY

OUR VISIT TO FRANCE

MONDAY 31-03-2025

On the first day we went to the French school. Students and teachers welcomed us with many cookies and juice. They were so happy and smiling. We met all the students and we ate breakfast all together.

Then teachers took part in activities about social stereotypes, cultural diversity, discrimination and human rights. We explored identity and diversity through self portraits, expressing feelings, sharing emotions and we played board games with all the students. Also, we created a logo for Erasmus that reflects European values, democratic ideals and well-being at school.

Later we ate a perfect lunch, meatballs with potatoes, rice and slice of pizza.

After lunch, we attended the rehearsal of the school choir for the annual music festival.

When we went back home and we ate dinner with the host families.

TUESDAY 01-04-2025

On Tuesday, we attended a food workshop and we carried out a healthy food project. We prepared an apple pie.

After that we had a media workshop, where some students took an interview from us about our school life, bullying incidents, class rules and well-being at school.

Students used tablets, microphones and green scree background.

Our lunch included steak with fries.

In the afternoon we went to Camylle's house to eat and have fun.

WEDNESDAY 02-04-2025

On Wednesday we visited the city of Pau, specifically the king's castle and the art museum. The exciting moment of the day was that we took a cable car.

After that we went back to school and ate at the school canteen.

Later, we went to Inez's house to play some board games.

THURSDAY 03-04-2025

On Thursday we attended classes, such as French, English, Spanish, Literature, Maths, Chemistry and History.

Then, we ate at school, toast, jam and other tasty things.

After school we went all together to my host's house, Celia's house and played lots of cool games.

FRIDAY 04-04-2025

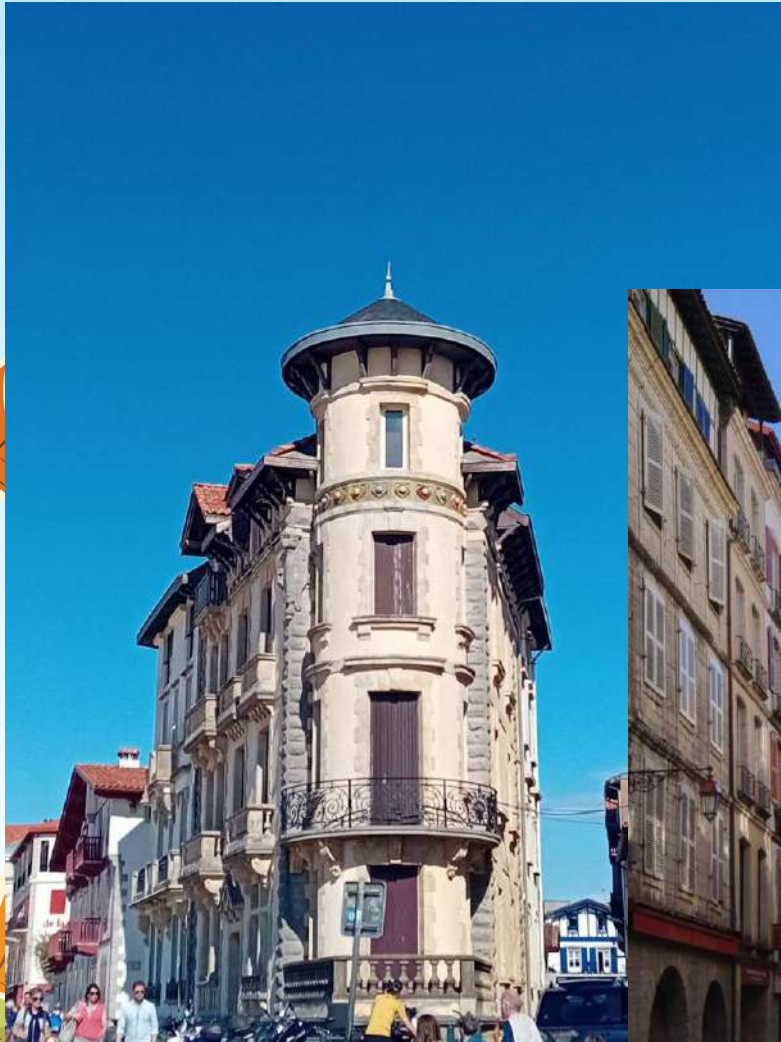

- On Friday, host students took interviews from us during the media workshop at school. We talked about our school life, bullying incidents, daily classes and well-being at school.
- After that they presented us their school youtube channel and they taught us how to edit videos with the use of tablets.
- Later on that day, the girls took us with them to watch their basketball practice.
- At the end of the day we gathered at Ileana's house and had fun.

SATURDAY 05-04-2025

On Saturday morning we went all together in a city called Bayonne, which was very nice. We visited a big catholic cathedral, we continued our walk with lots of shopping and then we went to the beach for a little picnic.

By that time it was already evening, so we went for another walk and then we ate at McDonalds with all the girls.

Sunday 06-04-2025

On Sunday we had to wake up very early so we could pack all our things and head off to Bordeaux.

We went to the historical centre of the city to see the most important monuments and landmarks and also for some more shopping.

Later on we ate lunch all together at a really nice Italian restaurant.

We were very tired that day, so we went back to the hotel early to get some sleep.

MY FAVORITE MOMENTS

My favorite moments were during the first day, when they showed us their huge school and we realized the benefits for the French students. There were many classes and inside the school there was everything a student needs. Also, I was impressed that in the French school there are supervisors for the children during the breaks who are not teachers..

Also, I really liked the cultural visit to Bordeaux and Pau.

OUR MEMORIES

Thank you!!

Erasmus+

Ανοίγει δρόμους, αλλάζει ζωές.
